Termination, as that term is used in this section, does not include termination for default of the supplier.</p>						

**STATE OF CALIFORNIA****Bid Specification****Handgun****Department of Parks and Recreation****1.0 PRIMARY DUTY WEAPON:**

The primary duty weapon is the primary weapon for field patrol duties and shall meet the following requirements:

- Meets NIJ Standard 0112.03 regarding firearms testing specifications.
- The primary duty weapon shall be designed and intended for law enforcement purposes and use and shall not be intended or constructed for recreational use.
- Serviceable lifespan of the primary duty weapon shall be a minimum of 10 years.
- The primary duty weapon shall be constructed in such a manner that the risk of unintentional discharge is at a minimum.
- .40 caliber
- First shot shall be double action. Subsequent shots shall be double/single action.
- The slide shall remain open after the last round is shot from the magazine to ensure that the chamber is empty.
- Removable, external only trigger locking device that has an external key to open and secure the weapon.
- Low profile / combat type low-light sights
- Ambidextrous features available
- 3-1/2" to 4-1/2" barrel
- Minimum capacity of 14 rounds (magazine) plus 1 round in the chamber
- Each primary duty weapon shall be equipped with three (3) standard law enforcement duty magazines. Contractor shall provide an additional three (3) red-based magazines per weapon for practice range.
- Accessory tactical rail (primary duty weapon)
- Contractor shall supply weapon-mounted tactical lights for designated primary duty weapons. Weapon shall be supplied with the tactical light mounted on the weapon. Tactical lights shall have a minimum white light peak of 125 lumens.
- Tactical lights shall be capable of being removed and remounted. Tactical lights shall have ambidextrous controls for left or right handed officers.
- Stainless or coated/treated steel slide (not blued)
- Polymer construction
- Various size grips/frames
- The primary duty weapon shall be durable and shall operate despite being exposed to sand, salt, dust, dirt, and water.
- The primary duty weapon shall be resistant to rust.
- The primary duty weapon shall fit the appropriate Level III retention duty holster.
- The primary duty weapons shall be engineered and constructed to be uniform with interchangeable parts. The weapon shall have a minimum number of custom fitted parts. Contractor shall identify the number of custom parts for the weapons.
- Primary Duty Weapon Holsters: The contractor shall provide a Level III retention duty holster for each primary duty weapon supplied.

- Duty holster for primary duty weapon without mounted tactical light shall be mid-ride belt position, Level III retention in black basket weave finish.
- Duty holsters for designated primary duty weapons with mounted tactical lights shall be a Level III retention duty holster in black basket weave finish that can accommodate the primary duty weapon with a mounted tactical light.
- Duty holsters shall have similar manipulation for drawing the weapon whether the primary duty weapon has a mounted tactical light or not.
- Duty holsters shall be available in left or right handed models as specified by the State.

## 2.0 **COMPACT DUTY WEAPON:**

The compact duty weapon is used for special assignments and shall meet the following requirements:

- Meets NIJ Standard 0112.03 regarding firearms testing specifications
- The compact duty weapon shall be designed and intended for law enforcement purposes and use and shall not be intended or constructed for recreational use.
- Serviceable lifespan of the compact duty weapon shall be a minimum of 10 years.
- The compact duty weapon shall function similarly to the primary duty weapon.
- The compact duty weapon should be constructed in such a manner that the risk of unintentional discharge is at a minimum
- .40 Caliber
- First shot shall be double action. Subsequent shots shall be double/single action.
- The slide shall remain open after the last round is shot from the magazine to ensure that the chamber is empty.
- Removable, external only trigger locking device that has an external key to open and secure the weapon.
- Low profile / combat type low-light sights
- Ambidextrous features available
- 3" to 3-1/2" barrel
- Minimum capacity of 9 rounds (magazine) plus 1 round in the chamber
- Three (3) standard law enforcement magazines per weapon
- The compact duty weapon shall be constructed to also accept and function with the primary duty weapon magazines.
- Accessory tactical rail
- Stainless or coated/treated steel slide (not blued)
- Polymer construction
- Various size grips/frame
- The compact duty weapon shall be durable and shall operate despite being exposed to sand, salt, dust, dirt, and water
- The compact duty weapon shall be resistant to rust
- The compact duty weapon shall fit the appropriate Level II/III holster.
- The compact duty weapons shall be engineered and constructed to be uniform with interchangeable parts. The weapon shall have a minimum number of custom fitted parts. Contractor shall identify the number of custom parts for the weapons.

- Compact Duty Weapon Holster: The contractor shall provide a concealment self locking system (SLS) paddle holster for each compact duty weapon supplied. Holster shall be available in left or right handed models as specified by the State.
